Franke hoods

- elegant design and first-rate technology
- chimney, island and built-in
- elegant stainless steel design, dramatic black glass or clear white glass

External exhaust

- Higher performance – the odour filter reduces the performance of the recirculation hood by up to 20%.
- Greater safety – leads all fumes outside the kitchen.
- Quieter operation.
- Cheaper operation – no need to change odour filters.
- Backdraft shutter not included.

Recirculation

- Most Franke hoods can also be used for recirculation when the filtered air goes back to the room.
- Activated charcoal odour absorbing filters are not included in the delivery (unless stated otherwise).
- There is also the option to purchase a long-life filter where the filter can be washed 5–8 times in the dishwasher.

Blanco sinks

- stainless steel
- SILGRANIT®PuraDur®
- CERAMIC PuraPlus®

Stainless steel

- due to its material properties, stainless steel fundamentally does not rust

Pura ceramic

- it is absolutely resistant to high temperatures, even long-term sunlight does not change its colour or structure

Silgranit

- has a natural resistance to common home acids (such as vinegar or citric acid), it is resistant to coffee stains or some fruits and vegetable stains
- the surface is smooth and free of pores
- this maximally prevents dirt from settling and the multiplication of bacteria

Silgranit colour switch

Blanco granite sinks

- excellent composite material Silgranit® PuraDur® is characterised by the optimal balance of easy maintenance, durability, smoothness and perfectly combinable colours
- silky stone surface creates a stone character of the sink that is pleasant to touch

Main advantages of the material:

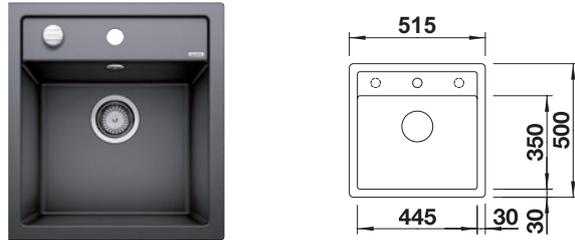

- scratch resistant
- unbreakable
- resistance to high temperatures up to 280 °C
- 100% food-safe surface
- 100% acid resistance
- 100% colourfastness

Blanco ceramic sinks

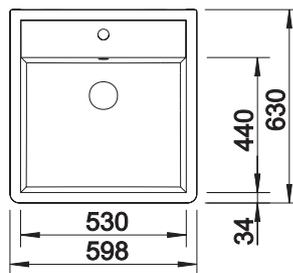

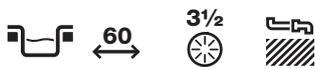

- With Blanco PuraPlus®, ceramic sinks look like new for longer time. Special PuraPlus® glazing smooths the surface of the sink. Hydrophobic surface of the sink reduces the adhesion of deposits (e.g. calcium) and stain formation.
- Soft, damp cloth and a mild cleaner are sufficient for routine cleaning.

Advantages of Blanco ceramic sinks:

- easy maintenance

- impact resistant in normal home use
- scratch and stain resistant
- full shades of colours – matt or polished
- made with traditional craft production
- resistant to high temperatures
- sanitary
- acid resistant
- colourfast – even when exposed to direct sunlight

How to choose the right cutlery tray width

producer	subtraction from inner width of the cabinet body (LW - W) (mm)	inner depth compared to the defined slide depth (mm)
Blum LEGRABOX	42	26
Blum TANDEMBOX ANTARO	48	
StrongBox	60	
StrongMax	42	
Hettich InnoTech Atira	73	30
Hettich ArciTech	58	21 (sheet metal) and 24 (wooden)

- ① internal width of the drawer specified by the producer
- valid for cutlery tray with 50 mm height (H)
- these dimensions are subtracted from the inner width of the cabinet body

e.g. StrongBox for cabinet with 600 mm external dimensions, 18 mm wall thickness and 500 mm slide length:
 inner dimensions of cabinet body: **LW = 600 - 36 = 564 mm**
 inner width of drawer: **W = 564 - 60 = 504 mm**
 inner depth of drawer: **500 - 26 = 474 mm**

FineLine LiniQ cutlery trays

- new line of FineLine LiniQ wooden cutlery trays
- variable width of cutlery trays thanks to plug-in outer segments
- wide offer of solutions

AGO-System non-slip mats

- AGO-System are non-slip mats characterised by their functional surface and high non-slip resistance.
- They ensure that items placed in the drawer remain in place.
- these mats are supplied as standard in plates with a thickness of 1.5 mm and 2,100 × 500 mm dimensions
- **Advantages of the solid design of these mats:**
 - easy formatting to required size
 - no need of gluing on base material (no warping)
 - significantly higher non-slip feature and damping when an item falls on the mat

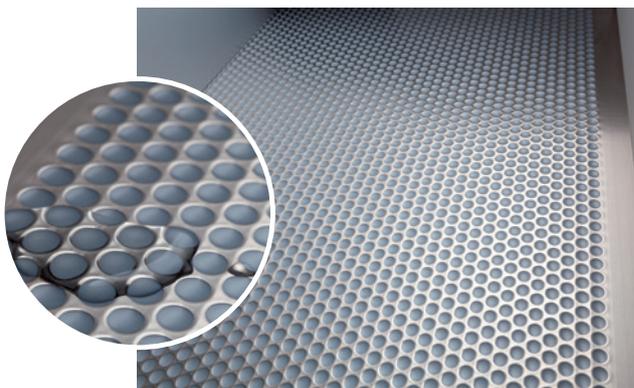

code	description

sorters, waste bins

Concept 560 sorters

Large capacity Concept 560 sorters are nowadays the requirement of common customers who want to maximally utilise the inner space of a cabinet. The amount of household waste is currently increasing and thus the demands for the size of sorters are higher. This demand is met by the Concept 560 sorter series, with robust, large-capacity waste bins.

- possibility to use a separate top cover for the bins (after opening the drawer, the bins are ready for immediate use)
- variants for 500 and 450 mm drawer depths
- metal frame for the suspension of bins including dividers (plastic side parts)
- for cabinet body material thickness 18–19 mm

Main advantages:

- easy installation of the system by placing on the top of the slides (slides are not included in the scope of delivery)
- can be combined with Blum (Tandembox, Antaro, Intivo), Hettich (ArciTech), Strongbox, and other slides
- capacity up to 84 l

❗ slides are not included in the scope of delivery

Spare waste bins for Sistema sorters

code	volume (l)
231194	6.5
231192	7.5
231195	14
231193	16

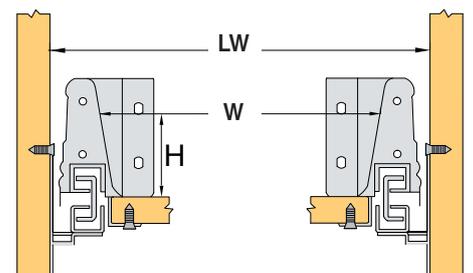

- bins are without a lid

sorter type / slide type	Blum ANTARO D		Blum LEGRABOX C		Hettich InnoTech Atira			StrongBox	
slide depth / colour	white	grey	white	grey	white	silver	anthracite	white	grey
500 mm	206045	206044	255238	255234	348776	348780	348778	179271	146773

How to choose the right width of the drawer sorter

- internal width of the drawer specified by the producer
- valid for cutlery tray with 50 mm height (H)
- these dimensions are subtracted from the inner width of the cabinet body

producer	subtraction from inner width of the cabinet body (LW - W) (mm)	inner depth compared to the defined slide depth (mm)
Blum LEGRABOX	42	26
Blum TANDEMBOX ANTARO	48	
StrongBox	60	
StrongMax	42	30
Hettich InnoTech Atira	73	
Hettich ArciTech	58	
		21 (sheet metal) and 24 (wooden)

e.g. StrongBox for cabinet with 600 mm external dimensions, 18 mm wall thickness and 500 mm slide length:
 inner dimensions of cabinet body: **LW = 600 - 36 = 564 mm**
 inner width of drawer: **W = 564 - 60 = 504 mm**
 inner depth of drawer: **500 - 26 = 474 mm**

Bathroom laundry collectors

- it is installed in a cabinet depth of only 307 or 222 mm
- easy access to the collector
- easy collector handling, simple pulling out of the cabinet body
- durable plastic collector and a practical bottom-up attachment

The system includes:

- plastic collector
- metal collector holder

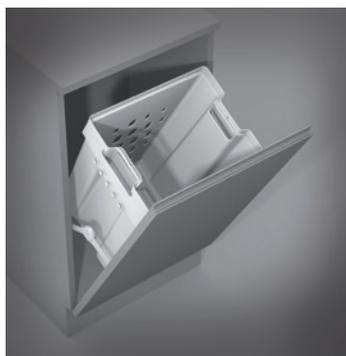

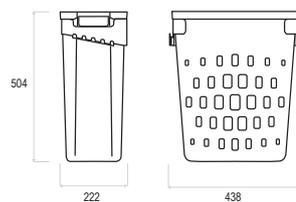

Installation:

- a metal fastener is installed on the door
 - the entire door is secured to the base of the cabinet with the DUO lifting system
- hinge and lift fittings are not included
 - recommended hinges - classic concealed hinges
 - recommended lift fitting - Duo 135017
-  opening restrictor - drop-down 15620, see p. 1.113

Multi slicer BFS 72 SR

code	description
229295	silver, right

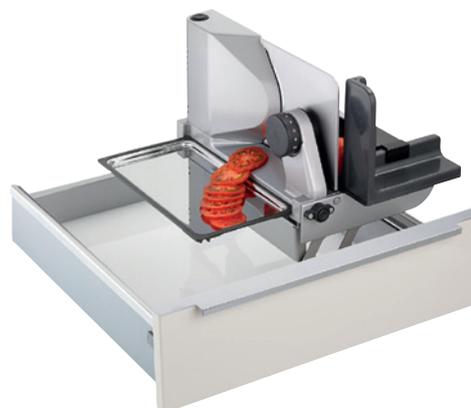

- for installation in standard drawers with a cabinet body width of at least 45 cm
- built-in universal slicer in high quality full metal design
- the two-finger switch-on system increases safety
- guiding the sliced material to the right
- electrolytically polished blade, diameter: 17 cm
- push lock for blade removal without using a tool
- slice thickness adjustable up to approx. 14 mm

Safety locks preventing:

- spontaneous sliding-in during cutting
- spontaneous change of slice thickness
- spontaneous folding
- child safety lock with two-finger switch-on system
- intermittent and continuous operation
- polished stainless steel food collecting tray
- fastening bracket for finger protection and holder
- automatic locking of installation fittings
- appliance dimensions: height: 75 mm, width: 342 mm, depth: 365 mm (folded)
- VDE/GS mark, safety category 2, CE
- 230 V, 65 W (new energy-saving motor)
- weight: 4.3 kg

Optional accessories to purchase:

- 402960 smooth blade, electrolytically polished (suitable e.g. for slicing ham)
- warranty: 2 years, product made in Germany

402960

Multi slicer BFS 62 SR and BFS 62 SL

code	description
RI002	AES 62 SR, silver, right
RI004	AES 62 SL, silver, left

- foldable slicer into a pull-out for cabinet body width of 450 mm
- full metal design
- hardened 170 mm blade with special serration
- smooth slicing adjustable up to 14 mm

Safety locks preventing:

- spontaneous sliding-in during cutting
- spontaneous change of slice thickness
- spontaneous folding
- removable stainless steel tray with fixed position on the slicer
- minimum inner depth: 418 mm
- minimum inner width: 342 mm
- minimum necessary height: 75 mm
- holder of leftovers
- input power: 130 W
- weight: 4.7 kg

Optional accessories to purchase:

- 292620 smooth blade, electrolytically polished (suitable e.g. for slicing ham)

N Built-in vacuum cleaner BVC 10

code	description
363038	built-in vacuum cleaner BVC 10

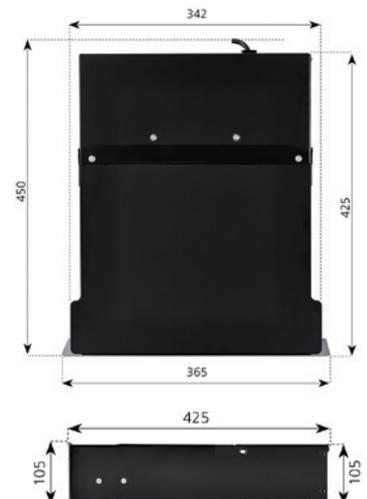

- can be retrofitted under the kitchen units, 230 V socket is required

Parameters:

- powerful 600 W motor
- stainless steel surface
- activated by tapping the button
- rapid dirt extraction
- extracts dirt up to 12 mm in diameter
- bags (with anti-allergen filters) included in scope of delivery, easily replaceable
- weight: 9.2 kg

Dimensions:

- height: 100 mm,
- width: 345 mm,
- depth: 460 mm

OPTIONAL ACCESSORIES

code	description
376350	kit for built-in vacuum cleaner

Set contains:

- slide-in nozzle, hose, crevice nozzle, brush attachment

Built-in cordless blender BHB 50

code	description
348058	built-in cordless blender BHB 50

- cordless battery-powered hand blender
- for drawer width at least 300 mm
- three speed settings: 6,000 rpm
9,000 rpm
12,000 rpm
- the charging station is firmly mounted in the drawer, can be removed without tools for quick cleaning
- LED battery capacity indicator
- 4 attachments: universal, whipping, stirring, cutting
- two-finger switch-on safety system
- charging 100–240 V, lithium-ion battery: 7.2 V, 2.1 Ah
- total weight incl. charging station – 1.4 kg, blender weight – 1 kg
- overall dimensions in drawer: width 138 mm, length 420 mm, height 73 mm

Toaster BT 10

code	description
RI013	toaster BT 10

- folding toaster is designed for pull-outs
- ready to use with one movement
- thermal insulated housing made of stainless steel
- defrosting cover
- reheating function
- stop button to interrupt toasting
- specially shaped crumb tray for cleaning in any position of the toaster
- lock for turning-off the toaster in folded position
- rack for toasting rolls
- minimum inner width: 178 mm
- minimum pull-out height: 75 mm
- minimum inner depth: 415 mm
- weight: 2 kg

waste disposers

Eco Master disposers

- The new generation of EVO3 disposers are equipped with a series of innovations, such as a wider stainless steel throat, a stainless steel plug that changes to a practical strainer after pressing a centre button, etc. In contrast to the Plus series, the EVO3 disposers have smaller dimensions while keeping the power and maximum crushing speed.
- Extended warranties for disposers apply only to households - for catering facilities valid only for 2 years.

EcoMaster Economy EVO3 disposer

for small households

code	description
354034	1/2 HP (375 W)

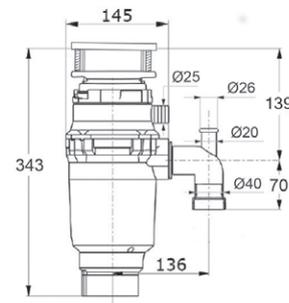

- designed for small households or for places with non-standard or very tight mounting space
- all crushing components are made of stainless steel
- noise damping by covered motor

TECHNICAL INFORMATION:

- speed: 2,600 rpm
- torque: 1.5 Nm
- chamber volume: 1.48 l
- crushing segments: stainless steel, reinforced blades
- weight: 4.4 kg

WARRANTY

2
YEARS

EcoMaster Standard EVO3 disposer

for common households

code	description
337729	3/4 HP (550 W)

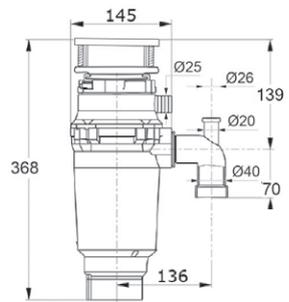

- suitable for all normal households and in places with a lack of space under the sink
- all of its crushing components are made of stainless steel; sufficient power and motor damping

TECHNICAL INFORMATION:

- speed: 2,700 rpm
- torque: 1.8 Nm
- chamber volume: 1.48 l
- crushing segments: stainless steel, reinforced blades
- weight: 5 kg

WARRANTY

3
YEARS

EcoMaster Heavy Duty Plus disposer

for demanding users

code	description
231699	3/4 HP (550 W)

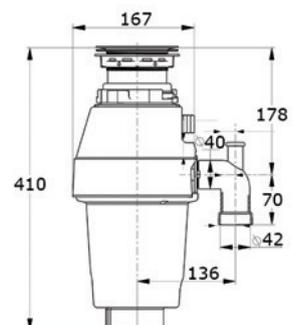

- recommended for all households
- optimally combines all parameters and enhancements of more luxury models
- compared to the cheaper Standard model, it features a bigger and deeper crushing chamber, overall noise damping of the motor and chamber including insulating pad

TECHNICAL INFORMATION:

- speed: 2,700 rpm
- torque: 1.8 Nm
- chamber volume: 1.83 l
- crushing segments: stainless steel, reinforced blades
- weight: 4.9 kg

WARRANTY

4
YEARS

EcoMaster Deluxe EVO3 disposer

for the most demanding users

code	description
337731	3/4 HP (550 W)

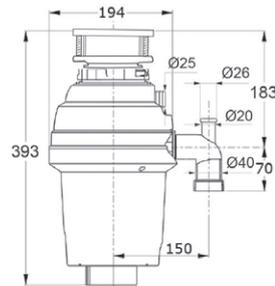

- suitable for larger households
- a great choice for those who do not like compromise and enjoy luxuriousness
- from a technical point of view, this disposer delivers perfection to all elements in the smallest detail
- compared to cheaper models, it has the biggest crushing chamber, the best overall noise damping of the chamber and motor
- the crushing ring is higher and, in addition, equipped with a double row of perforations for faster and finer crushing

TECHNICAL INFORMATION:

- speed: 2,700 rpm
- torque: 1.8 Nm
- chamber volume: 1.9 l
- crushing segments: stainless steel, reinforced blades
- weight: 5.7 kg

WARRANTY

5
YEARS

EcoMaster LCD EVO3 disposer

for catering facilities

code	description
337734	1 HP (750 W)

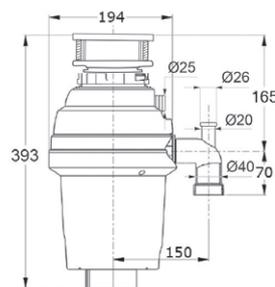

- for medium-demanding commercial facilities with a frequency of 200 to 300 meals per hour
- kitchens, restaurants, schools, hospitals, retirement homes, congregate care facilities, canteens

TECHNICAL INFORMATION:

- speed: 2,800 rpm
- torque: 2 Nm
- chamber volume: 1.9 l
- crushing segments: stainless steel, reinforced blades
- weight: 5.7 kg

WARRANTY

5
YEARS

ACCESSORIES

Pneumatic switch for EcoMaster disposers

code	description
367540	mat stainless steel

- serves as a controller to start the disposer (direct connection to the disposer)
- standard placement in the sink area, same as the tap (35 mm hole)
- disposers can be used also without this controller (using a switch-operated electric socket)

Tubular siphon for EcoMaster disposers

code	description
231705	plastic

- recommended for faultless assembly of disposer
